BRIDGEPORT GIRL MAY DIE; VICTIM OF CRUEL ATTACK

**Outraged by Man Who Hid
Behind Store and Sti-
flled Her Cries.**

COKE ASHES ARE USED AS GAO

Following Abuse, Mary Baker, 17 Years Old, Creeps to Home and is Found Unconscious in the Doorway; Returning from Mt. Pleasant

Special to The Courier.

MOUNT PLEASANT, March 10.—Attacked and criminally assaulted on the sidewalk by a man who took her by the neck of her dress and carried her to the back of the Union Supply Company's store at Bridgeport, Mrs. Mary Baker, 17 years old, was left barely conscious and her assailant escaped without those in the store being aware of his crime until long afterwards. The girl is in a critical condition and may not recover. She was found unconscious in the doorway of her home, that of Mr. and Mrs. Jerry Baker.

The girl battled desperately to protect herself. To stifle her cries the

man filled her mouth with coke ashes. The gag proved effectual and those in the store, not many feet distant, did not hear a sound of the struggle. The man also covered the girl's face with

The ashes and when found later she was bleeding from a score of wounds.

Sometime after she had been attacked, the girl does not know how long she fought with the man, he held her by the throat and she was found. She crawled to her home nearby, and was found unconscious in the doorway.

Crosby of Mount Pleasant was summoned. He found the girl in a critical condition and he thought she was dead. He said she is suffering from rough treatment and shock.

Miss Baker could not recognize her assailant. She said he was about 35 years of age and was 5 feet tall and wore a dark suit and black derby. He was faultlessly dressed, indicating that he was a man of some position.

The Enter home is about 400 yards from the Union Supply Company store. After finding the girl there, the police called for a dancing party was organized, but no trace of the man was found.

of the assailant could be found.

A STRONG SYNDICATE.

The broad current of politics is often shifted by undercurrents unimportant in themselves in the beginning.

For example, if Bruce Sterling and "Mitch" Palmer hadn't hunted groundhogs and fished for suckers in the country around Marietta when they were boys together, the Democratic organization of Fayette county might have stuck to Colonel Guffey at Harrisburg and never been for Wilson at Baltimore, or it might have not remained steadfast to the New Jersey candidate had it by any chance supported him at all.

On the other hand, if it had not been for this youthful Damon and Pythias combination, the Fayette county end of it might have been "in wrong" today instead of being right with Wilson and "scabber" with the chief distributor of Pennsylvania patronage.

In behalf of the Fayette county Republicans, a considerable Democratic organization upon the happy manner in which it "lit." The Republican organization has hitherto said something to say about the distribution of the rewards of party service in Western Pennsylvania; and if the dispensation of good things must pass into Democratic hands, we will all much prefer to see Fayette county Democrats presiding over the dispensary.

More power to the Sterling-Carr Syndicate. May the memories of stubbed toes and stone bruises and swimmer's holes make it stronger as the months pass and the vacancies come!

HOODLUM GOVERNMENT.

The manners of rural Monongalia county are sadly in need of mending. So bad have they become that nothing but a noose will furnish a proper object lesson.

A few days ago a man and his wife attended church in the evening. At the conclusion of the service the husband sought his horse and buggy hitched outside. His buggy robe was missing. Asked concerning it, a mass of youthful hoodlums set upon him and brutally murdered him almost in the presence of his nonchalant wife.

A few days later a young man returning from church was waylaid and horribly hacked and hewed with knives in the hands of another lawless crowd of young ruffians. That the victim did not die was due to any lack of murderous intent.

These crimes seriously reflect upon the peaceful character of the county that has for an urban center the Athens of West Virginia. The authorities of Monongalia should lose no time and spare no expense in bringing the culprits to justice and blotting out this stigma upon the good name of the community.

In neither the old nor the new and fanciful forms of government is there any room for Government-by-Hoodlums.

BRUTAL DRIVERS.

The services of a Humane Officer should not be necessary in Conneltsville or in any other community, so far as treatment of horses is concerned. If owners and drivers of such animals had a juster appreciation of their own interests.

The owner of a horse who abuses it to its detriment wantonly destroys his own property. He is not only vicious but foolish. The driver who abuses his horse abuses his trust and makes it much more difficult to manage the animal. He then makes his job all the harder. He is likewise vicious and foolish. If these fools could be made to see themselves as they are, the threat of the law would not be necessary to cure them of their folly.

But until they do the Humane Officer is a necessity, and he should be reasonably vigilant on the job at all times. He should also be impartial and unfeared. The discharge of his somewhat disagreeable duty, but good citizens who witness flagrant violations of the law should feel it a part of their duty to report the case to the Humane Officer for investigation and action.

Democratic agreement on the tariff will not be enthusiastically unanimous. A combination is already being formed to oppose radical reductions on commodities in which the constituents of the members have a special interest either as producers or consumers. The Democratic Tariff promises to be fearfully and wonderfully made.

Monessen's attempt at moral housecleaning is spluttered with blood, but the facts should not blunt the crusade against vice.

Whether the Washington police force made a proper effort to protect the Suffragist parade or not remains to be determined, but in general it may be said that when women put themselves in this position they must expect to take certain risks. It is hard to control a crowd under any circumstances.

Councilman Storer probably hopes to become the Great Incinerator of Conneltsville's fire department.

Democratic ambitions are ripening rapidly in the machine of political prosperity. The Honorable Abraham Mitchell Palmer wants to be Governor of Pennsylvania, at least he wants the nomination. He thinks the Democratic chances are better now than they were in 1910 when Colonel Guffey begged him to run and he refused.

The Fayette county Democracy are once more material and militant.

The man who undertook to rob the library may have mistaken it for the Mint.

The four defendants in the murder trial which occupied the Fayette county court all last week were not slow in testifying in their own behalf. They took no chances of the jury convicting them on the ground that "silence gives consent."

Sidewalk reform is one of the encouraging signs of spring in Conneltsville. Sidewalk reform should be real and earnest, and above all free from the suspicion of discrimination.

Women are great readers of newspaper ads, and most women would rather read news of some good, rousing sale than about what some politician is doing in Washington.

The Mount Pleasant stove factory burned, but the stoves were saved.

The members of the Democratic Triumvirate are dividing up fairly as between themselves and their lieutenants, and the Common Democrats must be happy and applaud. Down with the Bosses!

Sharon didn't capitalize that gold mine quick enough.

Fayette county can probably have the Internal Revenue Collector if the Sterling Syndicate says so, but it is not yet quite clear whether the word has been passed.

Between dross and failures, Mount Pleasant's industries have a hard time maintaining their cheerful activity.

The merchant who takes it for granted that everyone knows him because he has been established in business for many years and occasionally does a little advertising is doing himself a grave injustice. He should take nothing for granted, but should keep pegging away, telling his story as often as possible.

AN OPEN LETTER

Concerning an opportunity to secure a \$25.00 Spring Suit or Dress Absolutely Free.

Some time ago we made an offer of a suit or dress to the women sending us the best letter for describing an Ugly Spot in our City and best suggestion as to get rid of it. Our idea was a campaign for a prettier and better looking Conneltsville. So far the letters received have been from every ward in Conneltsville, excepting the 3rd and the two wards on the West Side. Surely someone in these three wards can pick out an unsightly spot that could be improved. Another thing that strikes us as peculiar is that so far we have not had a letter from a High School girl. We do not believe there's a girl who does not pass at least one or more of these Ugly Spots each day on her way to and from school.

If any one of these scholars can write a letter that will strike the judges as better than the letters we have and will receive from the mothers we will be glad to present her with the prize. We are in earnest in this effort for a prettier city and we have a surprising lot of women with us as, their letters show. It was a woman's letter that suggested the idea about our dangerous grade crossings and if there is any result to the present effort to do away with them, that letter should have credit with starting the movement. We are going to extend the time of this contest to April 15th. That is an additional month, and if you are to enter the contest mail your letter to us, as many as you like, signing your name on a separate paper and not to the letter.

We make this offer because we believe in a better and prettier Conneltsville and because we believe that a pretty City will attract just as many people as a fair-sized manufacturing plant, and because we believe that the improvement and cleaning up of a few Ugly Spots here and there in our City will do more towards improving our City than anything else and that this improvement can be done at a very little expense of either time or money.

SUMNER SOCIETY LEAD IN CONTEST FOR GOLD PRIZES

Four From Their Ranks and

MANY TURNED AWAY AT CHURCH

Last Huntingdon Schools Showed Up
Well in the Contest, Which Sur-
passed Anything Yet Held by Them;
Names of Those Who Won Follow.

Special to The Courier.
SCOTTSBURGH, March 10.—Intense
interest on the part of patrons and
friends of the East Huntingdon town-
ship schools characterized the literary
contest between the Webster and
Sumner literary societies of the town-
ship high school, which was held at
the Tarrs Methodist Episcopal church
on Friday evening. The contestants
were out for five prizes of \$10 in
gold having been donated to the so-
cieties by Walter F. Stauffer of the
Scottsdale Bank, who the year pre-
vious had given five prizes of \$5 each
to the contestants at their first con-
test.

There was a great crowd present
and not all, by any means, could get
inside the church, whose auditorium
and Sunday School rooms were packed
to their utmost capacity.

The contest was waged with a close-
ness that puzzled the judges. T. C.
Gordy, superintendent of the Mount
Pleasant school; J. C. Spiegel, Super-
intendent of the Huntingdon town-
ship schools, and Rev. Mr. Lorimer,
pastor of the United Presbyterian
Church of Mount Pleasant. The
Sumner society went out as a society
four of their representatives taking
prizes, while only one contestant of
the Websters was successful. In the
oration Andrew Shidshamer represented
the Webster society with the oration,
"Faith, Action, Nerve," but was
outdistanced by Locomis, the
Sumner representative who spoke on
"A Training School for Citizens."

"School Girl Outraged" was the
subject of the Sumner essay by Vera
Lutiker, while Locomis's repre-
sented the Websters with "An Op-
timist" and won the prize for the
Websters.

In the recitation Ruth Bowser ap-
peared with "The Great Remem-
brance" for the Websters while
Dorothy Sherrick for the Sumners
with the recitation "The Painter of
Seville" was the winner.

The debate was on the question,
"Resolved, That the United States
Should Adopt a More Extensive Sys-
tem of Shipping Subsidies." The Sum-
ners had the affirmative of the ques-
tion and their speakers were Arthur
Brown and Harry Bahr, while the
Websters had the negative of the
question being represented by Anna
Kosow and George Kelley. The af-
firmative side captured the prize.

Prof. Samuel Pauls, principal of the
township high school at Altoona,
presented the prizes to the successful
contestants. Ralph Myers president
of the Webster Society and Earl
Leucks President of the Sumner So-
ciety, presided at the contest. The
music by the two societies was a fea-
ture of the evening and it was gen-
erally considered that the contest was
one of the greatest events ever held
in the township. Next year's contest
will be watched with interest, and
the feeling is strong for the event al-
though a year distant.

Great Stride in the Right Direction

Movement to Check Tuberculosis in Cattle.

The following paragraph clipped from the Baltimore Sun "Frederick, Md., February 3.—Seventeen cattle out of a herd of 23 belonging to Mr. E. D. DeLaughter, near this city, were killed this morning under the direction of Dr. W. G. Benner, an expert from the Bureau of Animal Industry, Washington. The cattle were tuberculous tested several days ago and the result of the test showed indications of tuberculosis." This is undoubtedly a move in the right direction and our government officials believe that unless there is some step taken to prevent the spreading of this dreadful disease among cattle, it would be only a few years until it

would be difficult to supply this country with wholesome meat. Now if every person would take as much interest in themselves and their friends as the Government takes in our cattle, that is find out whether or not they are infected with this dreadful germ and if so, take proper treatment at once. Consumption could be reduced to a minimum. The best thing we can recommend for coughs, colds, bronchitis or weak lungs is Bear's Emulsion—that's all A. A. Clarke and Graham & Company, Connellsville. The BACK-YARD FARMER

BY PROF. JOHN WILLARD BOLLE

Starting With Chickens.

Thousands of new flocks of chickens will be started off this spring with great enthusiasm and still greater expectations. It happens so every year. The fifty or sixty odd poultry papers, the hundred odd agricultural and horticultural journals, the several hundred poultry shows given each year by as many local poultry associations, the thousands upon thousands of established breeders of pure fowls, the agricultural colleges and experiment stations—all of these agencies are doing a mighty work in their efforts to interest all of us in poultry keeping.

Small flocks of chickens can always be handled profitably by observing a few very simple rules. It is only with great big flocks that the odds are against us. In starting out at this time of the year, one can either buy eggs and hatch them, or day old chicks can be purchased and raised, either with hens or small brooders. For a person entirely unfamiliar with poultry, the ideal scheme is to go to some poultry raiser and buy from him a hen with her chickens already hatched.

Take them home and place the hen in a good coop that will confine her in a dry, shady place and will permit the chicks to run out and in at will. Be sure the ground under the coop

is dry and clean. Move the coop frequently.

Dust the hen thoroughly with Permasan insect powder as soon as you get her home and repeat in a week's time, to kill vermin on her and her chicks. Feed the hen a handful of cracked corn and wheat twice a day.

Start young chicks on barely molested bread crumbs three times a day and a prepared chick feed twice a day. Get this food from any seed or poultry supply house. Feed only what they will clean up quickly. Succulent green food should be furnished frequently.

If the chicks have a large range you need not bother about grit, charcoal or meat food, but these articles must be supplied if chicks cannot pick up gravel and insects.

After chicks begin to feather, keep cracked dry bone before them; feed two feeds of a mixture of cracked corn two parts, wheat one part, hulled oats one part, and one feed of very soft prepared wet mash every day. The mash can be secured ready mixed and it must not be fed too wet. Feed a little meat three times a week. Clean water must be supplied at all times. A good water fountain is a tin can inverted in a dish. A hole near the edge of the can lets the water out, when the level of the water in the dish is lowered enough to allow air to enter the can through the hole.

THE SOISSON.

ABORN GRAND OPERA COMPANY.

The Aborn English Grand Opera Company, which comes to the Soisson Theatre, Tuesday night, March 11, for one performance, is filling a unique place in musical circles, being the only organization of importance now on tour presenting grand opera in English. Up to three years ago, the Aborns had been presenting this art form in a few cities only, but during the past 10 years in New York, Boston, Philadelphia, Chicago and a few other cities. When the Aborn company made its third general tour last season it found a hearty greeting everywhere and is consequently equipped this year on a much more elaborate scale as to cast, chorus and orchestra, as well as in scenery, costumes and effects.

They will present Offenbach's finest opera comique, "The Tales of Hoffmann," a novelty in English repertoire.

In the Aborn touring company, the double cast system is followed, affording two singers of each description, who divide with each other the eight performances of each week, each artist appearing at every second performance. This dual array includes Ley Scott, the Australian coloratura soprano who was brought to America last year by Henry W. Savage for the title role in his production of Puccini's new opera, "The Girl of the Golden West." Edith Helena, the equally celebrated American dramatic soprano who appeared with the Aborn aggregation last season; Jayne Herbert, contralto, who has been transferred to this from other Aborn forces in which she achieved success; Hattie Belle Lind, another Aborn favorite; Eugene Eutin, dramatic tenor, who was one of the leading members of the Hammerstein's memorable Opera Comique Company, who comes to the Aborn organization from the Municipal opera in the capital of Mexico; Leonid Samboff, who was a decided favorite in leading tenor roles with this company on its tour; and others whose popularity in the former offerings of the Aborn English Grand Opera Company precludes the necessity of detailed introduction.

HOWE'S TRAVEL FESTIVAL.

Among the many characteristics of life in Holland, to be presented by Lyman H. Howe at the Soisson Theatre, matinee and night, Saturday, March 15, is that showing what inveterate smokers the Hollanders are. It is the indulgence in this habit, combined

with the peculiar climate, that makes them the calmest, most deliberate and phlegmatic race on earth. Tobacco smoke is called their second breath and a cigar or pipe is in evidence with them so incessantly that it is like a sixth finger of their hand. So confirmed is this habit, that many Dutchmen go to sleep at night with their pipes between their lips so they can find them immediately on awakening in the morning, and light them before rising. The bottom— a type of which is presented in Mr. Howe's series—measures distance not by the number of miles from place to place but by so many pipes of tobacco smoked enroute. For these reasons it is perhaps natural to expect that the world's champion smoker was a Hollander. His name was Stoinheer Van Klues.

Dynamiting a mountain; the amazing daring of structural ironworkers on the dizzy heights of six-acres overlooking Broadway, New York; a race for life by three panic-stricken refugees, pursued by infuriated lions, a ride through the Niagara Gorge; another through the Simplon tunnel connecting Italy and Switzerland; a visit to the Milan Cathedral, to La Granza—the summer residence of the Kings of Spain—and to a model American Military Academy at Culver, Indiana, showing the student's life, activities, sports, etc., during his entire career from a new recruit to graduation day; also bird studies, in the exact lines of nature, Paris fashions, jolly fish of the Mediterranean, and the clever Oriental methods of trapping monkeys to be presented on the forthcoming engagement.

LOST \$140 INTEREST.

Woman Keeps \$50 Lying Idle at Home for 33 Years. An Altoona woman who settled with a funeral director for her husband's burial used a \$50 bill that was given to her 33 years ago as a wedding present. The woman had saved the money expressly for the purpose for which it was used.—Philadelphia Record.

Had she deposited the \$50, thirty-three years ago, in the First National Bank of Connellsville, at 4% compound interest, she would have had \$190 to her credit. She could have paid the undertaker \$50 and had a balance of \$140. If you have idle money, better get it into the First National, at once, where it will earn more money for you and be absolutely safe.—Advt.

NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapepsin Makes Your Stomach Feel Fine in Five Minutes."

Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and stomach belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is useless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear. If your stomach doesn't take care of your liberal flunk without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Advertisement.

IF THIS IS YOUR BIRTHDAY

Do not enter into schemes without real investigation. You will work hard and meet with some disappointment, but later in the year your way will brighten.

Those born today will be free of thought and speech, but will be just and generous enough to have many friends. Though unable of great things, they will never succeed in any occupation which is not in itself interesting to them.

Your Cow

The skim milk and the manure from the dairy are products that are seldom raised at their full value. For raising poultry, hogs and calves, and for the maintaining and increasing the fertility of the land, and thus adding to the value of their investment, dairy by-products have a higher value every year.

Another strong argument in favor of dairying is that it forms a most satisfactory basis for diversified farming. With the monthly cream check as a foundation, and the chickens and hogs to consume the by-products, everything is turned to the best account.

Being able to harvest six crops of alfalfa a year you will realize that.

Let us tell you of the wonders of Spineless Cactus that supplements ALFALFA as a dairy feed, it costs only 75 cents a ton to produce.

Write us to-day and learn the great results you may accomplish on our small farms.

KUHN IRRIGATED LAND CO., Dept. 5A

412 Market Street, San Francisco, Cal.

Will produce 100 pounds of milk 60 per cent cheaper on our farms in the Sacramento Valley, California than she will in any of the Eastern States, and buttermilk she produces will bring 4 to 6 cents more a pound.

Here is one man's experience, but let us send you our new booklet "Settlers Stories" giving names of many men who have met with great success on Kuhn's California Project.

I am milking a small herd of common grade cows—part grade Jerseys and part grade Durhams, and my cream check amounts to \$15 per head per month. These cows are getting alfalfa pasture and wild out hay. One of the cows will calve in a month two were fresh in January and are two heifers under two years old in the fall.

I am familiar with farming conditions throughout the West and know that dairy products can be produced cheaper here and a higher price secured for them than any place I have ever been. I own four dairy cows here for from three and a half dollars to four dollars a month the year round. It might cost a little more in the Winter but would run as low as \$1.50 per month per head in the summer. A good dairyman can easily make \$10 a head clear each year with grade cows.

Yours sincerely,
ARTHUR HUDSON.
